Modular Buildings and Space Solutions, by Satellite Shelters Incorporated, a Feature of "Industry Today" on Industrialinfo.com

SUGAR LAND--September 25, 2008--Industrial Info Resources (Sugar Land, Texas) will host special guest Satellite Shelters Incorporated (Minneapolis, Minnesota) as part of this week's "Industry Today" webcast. Modular and blast-resistant buildings offered by Satellite Shelters are ideal for a variety of applications including control rooms, contractor work areas, meeting rooms, equipment storage and much more. These modular and blast-resistant buildings are backed by a team of petroleum industry experts with an industry-certified EMR rating. Celebrating its 50th anniversary, Satellite Shelters is a full service provider of mobile offices, modular buildings, storage containers and blast-resistant modules.

The permanent and temporary modular buildings offered by Satellite Shelters are built to strict petroleum-industry mandates, making them an ideal and cost-effective solution for federally mandated maintenance and clean-up programs. Constructing buildings to these standards also makes them ideal for use as base camps, break rooms, restrooms, contractor work areas, control rooms, equipment-sensitive housing, substance storage, meeting rooms and much more.

Satellite Shelters approaches each project with customer needs in mind, providing its clients with stress-free solutions to their temporary or permanent space needs. Satellite Shelters is currently providing more than 300 buildings for an ongoing refinery expansion project in Texas, demonstrating its ability to serve any size of project.

The company offers a flexible and broad range of options, including custom design and construction to meet your specific needs. Their blast resistant modules range from 1PSI to 8PSI and are built with quality precision construction and adherence to strict petroleum-industry mandates in a range of standard

sizes up to 12 feet by 40 feet or in custom sizes. Standard features include HVAC and wiring for electrical and data connections. As you prepare for your next turnaround or expansion, call Satellite Shelters to provide you with the blast resistant module or tool crib space you need.

Join Marty Mullaney, President and CEO, with Ralph Ramon, manager of the Houston branch of Satellite Shelters, along with the host of "Industry Today" to learn more about the effectiveness and convenience of utilizing modular buildings for your space needs [Click Here](#) to hear this or any of the more than 300 previous "Industry Today" webcasts covering topics important to industry spending, including trends, outlooks, and focus segments on specific industries.

Industrial Info Resources (IIR) is a marketing information service specializing in industrial process, energy and financial related markets with products and services ranging from industry news, analytics, forecasting, plant and project databases, as well as multimedia services.
